

Custom & Bulk Services

Exemplary Products Made to Your Specifications

Tonbo Biosciences is your source for custom product manufacturing and bulk reagents. When you pick Tonbo for your custom and bulk needs, a dedicated Team Member will work with you through the duration of your project to ensure you receive the support you deserve.

Our expert scientists will provide any needed guidance to best tailor your project to suit your needs. We ensure excellent customer service and open communications for a great experience. Learn more about our services below.

Bulk Reagents

Bulk reagents are great for consistency in long-term studies and optimal value. Obtain larger quantities of our catalog products packaged the way you need them. We will gladly accommodate requests for customized buffer formulations and/or concentrations.

Custom Antibody Conjugation Services

We offer conjugation services for both Tonbo-manufactured and customer-provided antibodies. Select from a wide array of Tonbo dyes or tell us if you have a special format request. We build to your specification requirements and offer guidance if needed.

Other Custom Services

- Antibody cocktail development
- Antibody production and purification
- QC testing

Our experienced scientists specialize in manufacturing the highest quality custom reagents, ensuring optimal results in your protocols.

Requesting a Quote is Fast & Easy

Request your custom quote by submitting our Custom & Bulk Reagent Quote Request form online at www.tonbobio.com/CustomQuoteRequest or by emailing customs@tonbobio.com. We will be in touch within 24 business hours.
